

Date: June 22, 2005

Subject: CM Workshop – WG# 4 meeting – June 29

Hello WG# 4,

I have scheduled a TELCO Bridge (2 hours) for Wednesday, June 29 at 12:00PM. The phone number will be distributed at a later date.

The attached Excel file contains seven tabs;

Problem Report Details 033105a (PR Baseline from the WIT meetings)

Problem Details 051805a (Additional PR's since the Baseline - Validated/Prioritized/Categorized by WG#4 up to 5/2/05 + newly listed PR's through 6/22)

Summary 033105a (PR Baseline sorted by PR number)

Quick Summary 051805a (Additional PR's sorted by PR number)

Sort - Priority 033105a (Baseline PR's sorted by Priority Level and Grouped)

Sort - Priority 051805a (Additional PR's sorted by Priority Level and Grouped)

Closed PRs -062205

WPFIT_Open-PR_062205.xls

Note that I have not compared the 'Closed PR' list against the 'PR Details 051805a'/the associated Quick Summary and Sort priority tabs, at this time.

The agenda for this meeting:

- 1) WG#4 team agreement on the prioritization and grouping of all PR's through May 2
- 2) Decide which additional PR's (reported since 5/2/05) should be added to this list immediately, and
- 3) Listing of the remaining PR's that are not addressed in item #2.

Regards,
Dennis
